REVOPODS

DESCRIPTION & SPECS	RETAIL
Set of 4 with M6, M8 and ¼-20 posts for speakers or equipment	$1,300 
3 color options: - Silver/Chrome - Black/Blue - Black/Black	
Weight: around 150g per damper (600g per set of 4)	
Diameter: 40mm • Min height: 32.0mm • Max height: 37.0mm	
Height adjustability: 5mm (in 50µm steps, 100 steps total)	
Weight limit: 120kg per set of 4	
Included: RevOpod dampers, silicone rings for mounting, thread adapters for M6, M8 and ¼-20 (other sizes available upon request)	

REVOPODS MINI

DESCRIPTION & SPECS	RETAIL
Set of 4	$300 
2 color options: - Black - White	
Dimensions: 1" Width x .6" Height	
Max. Loading: 88 lbs per set of 4	
Thread adapters: M3 (included) - M4/M5 (optional)	

ORBIUS

DESCRIPTION & SPECS	RETAIL
All-in-one turntable companion featuring record stabilisation, speed tracking, and precision levelling.	$3,000 
2 color options: - Chrome/Blue - Black/Yellow	
Dimensions: ø80.0mm by 36.0mm or ø3.15" by 1.42"	
Spindle clearance: 17.5mm* or 0.69"	
Weight by version: - 910g / 2.0lbs (Tungsten) - 390g / 0.86lbs (Blackwood	

AIRBLADE	
DESCRIPTION	
High-frequency loudspeaker with true constant directivity.	
Crossover: 1.0kHz,1.6kHz,2.4kHz,3.5kHz (1st Order)	
Sensitivity: ca. 96dB (adjustable by up to -12dB in 3dB steps)	
Impedance: 4 Ohm (linear, purely resistive)	
Dimensions:	- Height: 115mm (including RevOpod Mini feet) - Depth: 240mm (265mm including binding posts) - Width: 140mm
Weight: 11kg per pair (shipping weight: 12kg per pair)	
AirBlade HYPE - $9,000	*AirBlade* HYPE SE - $13,500
Driver: AirBlade 180	**Driver:** AirBlade 180SE
Crossover: Aluminium capacitors	**Crossover:** Silver capacitors
Binding Posts: Gold plated Tellurium Copper	**Binding Posts:** WBT Silver Nextgen
Wiring: Copper wiring	**Wiring:** Silver wiring (point-to-point)
Pole Pieces: MIM + Copper finish	**Pole Pieces:** MIM + TiN Gun Metal finish
Cabinet: Aluminium, Matt Black finish	**Cabinet:** Duralumin, Matt Black finish with laser engraved inlays on each side
Colour: Copper with blue accent ring	**Colour:** Gunmetal with yellow accent ring

Some Silbatone hybrid products are fully direct-coupled designs that incorporate an input transformer, the legendary Western Electric 310A triode voltage amplifier, and a proprietary I/V converter topology. This unique circuit architecture addresses the traditional challenges of interfacing vacuum tube stages with solid-state output sections.

By eliminating conventional coupling capacitors and implementing sophisticated, highly stable servo-controlled level shifting, Silbatone achieves a seamless integration between tube and solid-state technologies. The result is substantial power output combined with the natural tonal richness, dimensionality, and musicality associated with classic tube amplification.

Silbatone's approach to high-power hybrid amplification is specifically tailored for discerning high-end audiophiles who use modern, power-demanding loudspeakers, yet refuse to compromise on sonic purity. These designs deliver commanding output capability while preserving the organic character and emotional engagement of vacuum tube sound.
